# Construction Bulletin Advertising

The Builders' Exchange Association of Virginia has been part of the construction industry in Virginia since 1919. The *Construction Bulletin* provides up-to-date construction news and information for commercial, industrial and institutional activities in the private and government sectors of Virginia. This weekly publication reaches many general contractors, subcontractors, suppliers, service companies, architects, engineers and government officials throughout the Commonwealth of Virginia and some neighboring states.

Advertising in the *Construction Bulletin* is available for 26 issues (semi-annual) or 52 issues (annual). The only exception to the normal advertising periods is the insertion of full-page advertisements, which may be placed where space is available on either a single or multiple issue basis.

The Exchange reserves the right to reject submissions that are of poor reproduction quality, unprofessional appearance or have inappropriate wording or graphics, and / or deemed detrimental to the best interests of the Association.

Inquires and advertisement materials should be directed to:
